

The 16th Symposium of Biology Students in Europe 26 July - 5 August 2012 in Szeged and Gödöllő.

Hungary '12

www.hunsymbiose.hu, info@hunsymbiose.hu

SymBioSE was founded in 1996 by the German student association. The basic idea was to connect all European biology students, allowing for the exchange of ideas, perspectives and experiences about student concerns. This led to the first meeting in Berlin in 1997. After a successful start with 12 participating European nations SymBioSE was continued as an annual event held in one of the various participating countries. Since then, every host country has added to the initial framework and upgraded it with aspects of their own cultural background. This has resulted in a unique and enriching symposium each time.

Where you can:

- participate on excursions and lectures
- connect with other people from all over Europe
- discuss all kinds of biological topics
- learn about other countries' customs and cultures
- learn about current university matters
- have a lot of fun, and gain friendships!
